

*CPE-600 with 10 Gallon Stainless Steel Tanks*

*CPE-600 with 55 Gallon Drum Tanks*

The CPE-600 utilizes air-operated, positive displacement pumps for dual-component material systems.

This unit includes:

- Positive displacement pumping system
- (2) in-line pre-heaters
- (2) 25 ft. or 50 ft. heated dispense hoses
- GX-7 spray gunhead and tool kit
- (2) 10-gallon stainless steel tanks with mixers or (2) 55-gallon drum tanks with mixers
- Electric band heaters for both A & B 10-gallon tanks or 55-gallon drums
- 1/2 day training session at BJB's Tustin, CA facility
- Operation Manual

#### **OPTIONAL EQUIPMENT:**

- GX-8 spray gunhead
- Trigger-style or ball-valve dispense gun for meter-mix-dispense casting applications
